PRODUCTS THE PROS USE

Professional riders across North America recognize AMSOIL products as the best and most effective products available. The number of championships, checkered flags and medals claimed by AMSOIL-sponsored racers is testament to the extraordinary performance AMSOIL products provide.

AMSOIL Fuel Additive

AMSOIL Quickshot® is formulated to thoroughly clean varnish, gums and insoluble debris in two- and four-stroke gasoline-powered small engines and powersports equipment fuel systems, restoring peak performance. It effectively addresses performance issues related to ethanol, water and dirty pump gas, while stabilizing fuel between uses and during short-term storage periods.

AMSOIL Storage Products

AMSOIL Gasoline Stabilizer reduces the oxidation process in gasoline to help prevent harmful varnish and gum buildup, keeping fuel fresh up to 12 months.

AMSOIL Engine Fogging Oil resists rust formation during storage or long periods of inactivity, guarding against wear-causing dry starts.

Contact your AMSOIL Dealer for more information on AMSOIL products or to place an order. You may also order direct by calling AMSOIL INC. at 1-800-956-5695 and providing the referral number listed here. ▼

Snowmobiles

SYNTHETIC 2-CYCLE OILS **SYNTHETIC 4-CYCLE OILS** **ACCESSORY PRODUCTS**

AMSOIL synthetic lubricants provide maximum performance and protection for all makes of snowmobiles.

AMSOIL Synthetic 2-Cycle Oils

AMSOIL Synthetic 2-Cycle Oils reduce harmful heat and friction in high-revving snowmobile engines. They burn cleaner than other oils for reduced plug fouling and engine deposits. AMSOIL Synthetic 2-Cycle Oils deliver increased reliability and overall performance compared to conventional oils.

AMSOIL INTERCEPTOR® Synthetic 2-Cycle Oil is specifically engineered with increased cleanliness properties to reduce power valve sticking.

AMSOIL DOMINATOR® Synthetic 2-Cycle Oil features heavier synthetic base oils to provide added protection for high-performance sleds, both on and off the track.

AMSOIL Synthetic 4-Cycle Oil

AMSOIL Formula 4-Stroke® Power Sports Synthetic Motor Oil features a broad 0W-40 viscosity range for maximum wear protection during frigid morning startups and when operating temperatures increase when riding hard. It helps reduce friction, heat and oil consumption, while minimizing emissions.

AMSOIL Synthetic Chaincase & Gear Oil

AMSOIL Synthetic Chaincase & Gear Oil remains fluid in sub-zero temperatures to reduce drag and allow maximum power to reach the ground. Extreme-pressure additives ensure gears and chains receive premium wear protection. It is recommended for virtually all brands of chaincases and gearcases, including Arctic Cat® Diamond Drive™ Gearcases.

AMSOIL Suspension Fluid

AMSOIL Shock Therapy® Suspension Fluid is formulated for maximum stability and performance in high-performance snowmobile applications. It effectively controls friction and heat while limiting shock fade and inconsistent dampening.

Light #5 is recommended for applications that demand quick rebounds under extreme temperatures.

Medium #10 is recommended for applications that require more dampening and slower rebounds.

AMSOIL Synthetic Grease

AMSOIL Synthetic Water Resistant Grease is specifically designed to resist water washout and seal metal surfaces against rust and corrosion. Excellent for snowmobile suspensions and trailer wheel bearings.

AMSOIL Spray Protectant

AMSOIL Heavy Duty Metal Protector adheres to metal surfaces, leaving a long-lasting wax-like coating that repels moisture. Excellent when applied to suspension components and other parts susceptible to the damaging effects of salt, water or chemical corrosion.

Praise for AMSOIL Snowmobile Products

Dear AMSOIL,

Decker Tours has been organizing and conducting snowmobile tours for 30 years across the snow belt regions of the U.S. and Canada. Reliability and longevity are absolutely essential from our guide sleds. These machines can't fail, as they lead large groups of snowmobilers. Additionally, each sled can easily accumulate 7,000 to 8,000 miles per season with a tour schedule that allows no time for breakdown repair.

AMSOIL has proven to be the most effective lubricant in providing that day-to-day dependability. It's evident in cleaner-burning plugs, and we have never experienced an engine failure while using AMSOIL.

Oh, did I forget to mention that the tour riders who follow me appreciate the reduced exhaust smoke? I can honestly say that using AMSOIL synthetic motor oil has made a world of difference in the performance and dependability of our guide sleds. We use AMSOIL exclusively and we highly recommend it to all our tour customers.

Sincerely,

Dick Decker
Owner, Decker Sno-Venture Tours, Eagle River, WI
